Sensata Technologies Announces a New Director of Power Conversion Solutions

Petrina Zaraszczak Joins the Team

Sensata Technologies, Inc. is pleased to announce **Petrina Zaraszczak** has taken the role of **Director for our Power Conversion Solutions business unit**. In this role, Ms. Zaraszczak will lead the Power Conversion Solutions (PCS) business unit, consisting primarily of the Magnum Energy and Dimensions Inverters brands. Her exceptional track record of building technological and industrial organizations across a range of disciplines, from product management, to sales and business development, to strategic marketing will serve her well as she steps in to lead the Power Conversion team.

Previously, Petrina provided solutions in several management roles to technology-focused TE Connectivity, Honeywell, and H.B. Fuller. With a degree in Chemical Engineering and a strategic focus on leadership, she will work to grow the inverter, inverter/charger, and converter market for the Magnum Energy and Dimensions Inverters brands.

“I am thrilled to be part of the PCS team and am looking forward to expanding on the Magnum and Dimensions brands in the market. We have a strong team, a solid product portfolio to build on, brands with great histories,

and we are working with the right channel partners. We have a lot of growth potential,” said Petrina about her new role.

She will be located primarily out of the Sensata offices in White Bear Lake, Minnesota. The Power Conversion Solutions business unit manufactures exceptional inverters, inverter/chargers, and
