## **New Battery Monitoring Kits from Magnum Energy, Inc. Now Shipping**

Everett, WA. - The new Battery Monitor Kit (ME-BMK) acts as a "fuel gauge" for your batteries. It monitors the state of charge of your battery bank, reporting percent of charge, real time amps (plus or minus), amp hours and minimum and maximum DC volts. The kit contains the sense module, a twisted-pair sense cable, the communication cable, and a 500 Amp shunt. The MSRP is \$159.00.

The ME-BMK requires the ME-RC remote display with firmware revision 2.0 or higher. For customers that already own the ME-RC remote, Magnum Energy Inc. will upgrade the ME-RC remote at no charge if a copy of the proof of purchase for the ME-BMK is provided. Contact Magnum Energy at 425-353-8833 for details.

### **ABOUT MAGNUM ENERGY**
